Lycée Thiers, Marseille, France — 2022-2024

Baccalauréat

With distinctions

Maths, Physics and Numeric and Computer Sciences

Lycée Frédéric-Joliot-Curie, Aubagne, France — 2022

Experience

Internship - Web Developer

Net7 — 2025

First year 6 weeks internship at Net7, the association in charge of web services designed for ENSEEIHT students.

My work was to develop a website for the integration of first year students to allow the different school clubs to propose challenges to newcomers.

I was in charge of the entire backend and database part.

This allowed me to discover and/or deepen my knowledge of TypeScript, Node.js, Svelte and SvelteKit.

Personal Projects and Hobbies

- World of Warships clan administrator: 313e Escadre as well as a dedicated Discord bot
- Development of a Python Discord bot (since 2022)
- Developer (since 2025) and translator (since 2023) for Clan Planner
- Referee in the tournaments organised by World of Warships
